
N-Sure™ (ASN)

26% N 14% S

***The flexible alternative for nitrogen
and sulphur application***

The benefits of N-Sure

- 27% of the nitrogen is in the plant available nitrate form, for a quick response even in cool conditions.
- 73% of the nitrogen is in the ammonium form, for a sustained response.
- Lower risk of volatilisation losses than with urea.
- N-Sure supplies additional sulphur in the plant available sulphate form.

CAUTION

**This product attracts moisture, use
as soon as possible after bag is
opened, store in a dry place**
